

# Roxmead Nursery South Harrow Specialist Provision for SEN

## Opening September 2024

At Roxmead Nursery we pride ourselves on catering for children with a variety of different Special Educational Needs. To cater for a wider range of needs and to provide a more specialist provision, we will be opening a specialist provision in September 2024, in our nursery at South Harrow Methodist Church. The room will cater for 12 children identified as having additional needs and receiving input from a Speech and Language Therapist. This provision will have a much higher ratio of staff. The room will be staffed by highly qualified practitioners who have additional training in different special needs, including hoist training.

The room will provide workstation activities, bucket time sessions and resources appropriate to the needs of the children. The children will also spend time in our Nursery Class when appropriate, but have the haven on a quieter space when needed.
